

ANGLE MINI

Powerful and discreet, the Angle Mini effectively delivers high-quality, indirect light, combining precision and visual comfort to enhance any environment with fewer fixtures. Its sleek, configurable design ensures uniformity and low glare, providing versatile, high-performance lighting that adapts to modern architectural needs while maximizing efficiency.

DIMENSIONS

The product is offered in a compact format measuring 7.2 inches in length, with a height of 2.25 inches. It features a slim profile with a front edge height of 1.75 inches and an overall depth of 7.2 inches

OPTICS

Angle Mini uses advanced in-house developed optics to create a stunning indirect asymmetric light distribution. The meticulously designed extraction features on the edge lit optics allow the light to reach far forward, creating a beautiful and impactful illumination.

WALL SHIELDING

For wall shielding, our advanced optics feature a blacked-out edge to minimize backlight, making it particularly useful for wall-mounted fixtures. Specifying the fixture with wall shielding will result in a 12% reduction in lumen output.

LED LIGHT SOURCE

Custom-manufactured linear board array uses high-performance Nichia® LEDs in combination with a performance-driven heat sink technology. Tested in accordance with LM-79 and LM-80; L70 > 60,000 hours; operated at reduced output for high efficacy and lumen maintenance. Available in 2700K, 3000K, 3500K, and 4000K color temperatures. LED color variation is maintained within a 3-step MacAdam ellipse (SDCM 3x). LEDs are available in Standard, Medium and High outputs. Refer to photometry for delivered lumens.

LED DIMMING DRIVER

Standard constant voltage 120-277V electronic driver with 0-10V dimming control (dim to off). Max Driver life of 100,000 hrs with ambient operating temperature range of -20°C to 60°C, maximum case temperature of 80°C. Electrical specifications at maximum driver load: PF >0.90, THD 20%, >90% Efficiency.

CONTROLS

nLight enabled, remote mounted controls provided by others. Please contact an Acuity controls representative for more information.

MOUNTING

Discover the versatility of our product with six elegant mounting options: wall mount, wall mount with stem, single pendant wall wash, single pendant ceiling wash, twin pendant ceiling wash, and column mount. Pendant stems are available in a range of lengths from 1 to 6 feet, offering flexibility to suit any space.

STRUCTURE

The body is crafted from robust, high-quality cast aluminum. Its elegant and smart design ensures efficient heat sinking for the light engines within the fixture. With integrated drivers, this all-in-one fixture is simple to install. The Angle Mini weighs approximately 4.5 lbs.

FINISH

Electrostatically applied powder coat finish. Standard finish options include titanium, white, and black. Other colors and custom finish options available, specify RAL# or contact factory regarding custom finish requirements. Canopy and cover plates standard finish is white, unless otherwise noted.

LISTING

UL/CUL rated for Wet Locations. Tested in accordance with UL 1598 and certified to CEC/CSA C22.2. The Angle Mini is assembled in the U.S.A. and complies with the Buy America(n) Act (BAA), government procurement requirements under FAR, DFARS, and DOT.
